Minute taker: Vaida Domeikienė, ASEV

AGENDA

- management and organization of ASEV activities
- discussion on ASEV website;
- dissemination platforms;
- other questions.

MINUTES

The meeting was organized among teachers participants. The necessity of the meeting is to discuss project activities and their deadlines as well as to discuss new ideas which can enrich project outcomes. The partners remembered and discussed on the poster. The best one is decided to bring to Italian meeting for the competition in digital format. Turkish partners reminded all schools to join the project on eTwinning platform. Facebook and Instagram have been organized by Romanians, all partners are encouraged to upload the information about the project activities and results on ASEV social media.

Francesco, Italian coordinator, explained that a planned seminar about the debating methodology will be organized in Italy during students LTTA. The Turkish and Italian partners suggested an idea: Turkish students wrote reflecting paragraphs about LTTA in Vidin, Bulgaria and Italian students created a video to reflect Bulgarian LTTA. It would be nice that all other partners, students, could organize written or visual reflections. Moreover, it has been decided to create reflections after each LTTA.

ASEV website was discussed and some changes need being done:

- Display of logo
- Sign of Erasmus+ (co)-funded
- Home/ logo all school and pictures of schools
- Our project: school + logo of the school
- Meetings Kick-off and LTTAs
- Download  the link
